Information Systems Specialists

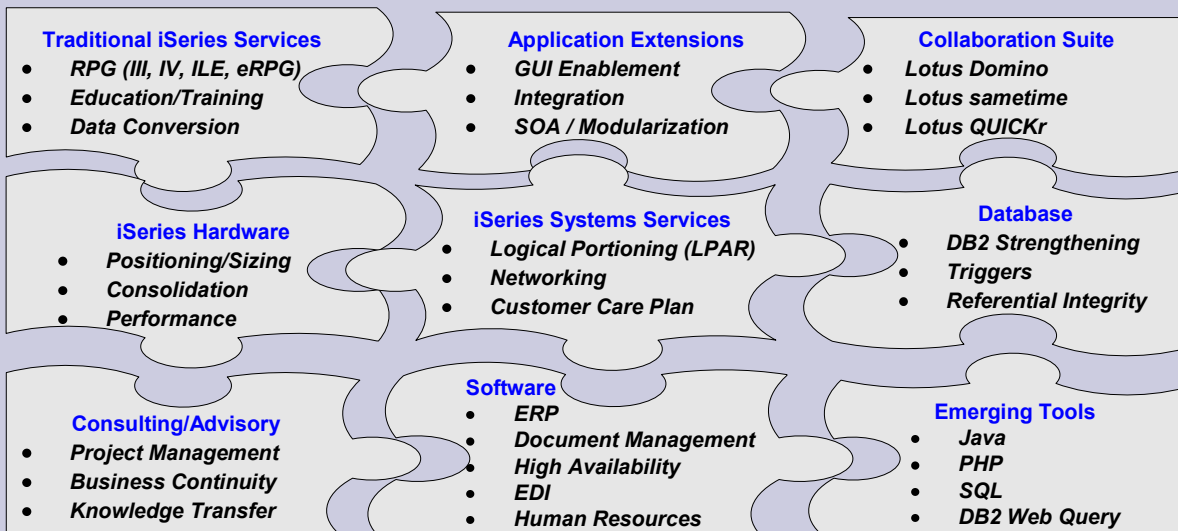

### System “i” Centric Business Solutions

As an IBM Business Partner we have been committed to the IBM Midrange platform since the iSeries/400’s inception in 1988. We have a positive track record of delivering high value Hardware, Software and Service solutions.

Our experienced professional team’s skills, chosen toolkit, and software alliances positions us to enable our clients to leverage technology to improve their business processes and provide an opportunity to realize a return on their investment.

Our formalized Solution Delivery Process enables our Certified Sales and Services Team to delivery turnkey solutions that focus on Application Modernization, 3rd party software Externalization, 21st Century Developer Training, Collaboration and Business Analytics.

#### Our Business solution toolkit includes:

#### GEMKO has a differentiated 3 pronged solution offering referred to as EMo21™:

- **Externalization**—Methodology that seeks to reduce or eliminate customizations to 3rd party software applications without jeopardizing business software functionality.
- **Modernization**—Methodology that consists of a business/technology solution that protects investments in legacy applications by positioning the applications to better meet the needs of the business.
- **21st Century Training**—Series of educational tracks that teach both thinking processes and techniques based on IBM's native tooling packaged within i5/OS.
